

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

### LAWS RELATIVE TO THE LIBRARY.

[From the Laws of Washington College.]

Books may be taken by the following persons only :—Trustees of the College ; those who have made donations to the Library to the amount of one hundred dollars ; the officers of Instruction ; President, Graduates, and Students.

The Library shall be opened at such stated times as the President may direct ; and the Students shall come in such order as the Librarian may prescribe.

No Student shall take from the Library, without special leave of the President, more than one folio at a time, which he may keep four weeks ; or one quarto, which he may keep three weeks ; or one octavo, which he may keep two weeks ; or two duodecimos which he may keep the same time. Every student who shall not return his books as the law requires, shall be fined at the discretion of the librarian, not to exceed twenty cents for each week of neglect. All books received by undergraduates, shall be returned to the library at the close of each term ; and all books taken by other persons, shall be returned the week preceding the annual Commencement. All damage done to the books, by writing in them or otherwise, shall be assessed by the Librarian, who is to keep a correct account of all damages and fines which he may collect, and which shall be appropriated to the augmentation of the Library.

No person, but a member of the Faculty, shall be allowed to receive more than three volumes at the same time ; nor shall any person be allowed to detain any book more than three months. No officer of the College shall take from the Library, or have in his possession at one time, more than twelve volumes. And whereas some books, from their nature or costliness, ought not to be removed from the Library, the Standing Committee shall cause to be prepared a catalogue of such books, which shall not be taken out but with their permission.

No person shall lend to another any book which he has received from the Library, under penalty of losing the privilege of borrowing for one year.

No student shall, without permission, take any book from any library kept out of the College ; nor may any Society purchase any books, or receive any into their libraries, which the College Librarian does not approve ; whose duty it shall be to advise with such Society, and to assist them in making a judicious selection of books.
